This exciting youth soccer program is designed to develop the very youngest of ages (5–8). All activities will maximize player development and stress a **FUN** concept to the game. Players involved will work with Lockport Township High School coaches to build a foundation of skills that they will need to succeed in the future.

Players will meet once a week. Training will have a set progression with a skill of the day followed by small- sided training games to reinforce the skills. Small sided games will include 2v2 and 3v3 to maximize skill development.

Registration forms can be picked up at the Community Wellness Center or you can visit www.lths.org under the “Community” tab. From there select Community Wellness Center and then Program Registration. The form can then be downloaded and printed out.

There are 3 ways to register for the soccer program:

- 1) Drop it off at the Community Wellness Center
